Re: Retail Customer Policy

To Whom It May Concern:

Due to the recent events regarding the spread of Coronavirus, our commitment to social distancing and our duty to help stop the spread of this virus; we have enacted the following policy regarding all customers at Atlas Metal and Iron.

Effective 3/23/2020 until further notice, Atlas Metal locations will ask everyone who enters our facilities to practice social distancing recommended by the CDC. We have enacted a 6' distance between our customers and employees. We have also made it mandatory to wear a face mask in our facilities to keep everyone safe during this challenging time. Failure to follow these procedures at either location will result in the customer being asked to leave.

This policy is for the health and safety of our customers and employees and we appreciate your understanding and cooperation.

Sincerely,

Atlas Metal & Iron Corporation
